TO CLAIM A RECORD

To make a record claim, please refer to the file **VHF Record Claims**, which contains the terms and conditions and a claim form. This material can be downloaded from the WIA web site. Details required are date, time, frequency, mode, signal reports, and some details of equipment used. Station locations must be given in degrees, minutes and seconds. Six digit locators are acceptable only for distances over 5000 km. If claims are signed by both operators, copies of QSL cards are not required. Otherwise claims must be accompanied by original QSL cards or certified copies.

If original cards are sent, they will be returned. Other material will be retained. The decision of the WIA on all claims will be accepted as final.

Record claims should be posted to: The Chairman, WIA Technical Advisory Committee, PO Box 2042, Bayswater, Vic 3153. Email enquiries can be sent to tac@wia.org.au.

A list of all past Australian VHF-UHF records can also be downloaded from the WIA web site.
