

## **μW activity - JO41PU and JO51EL**

Hello microwavers, enclosed some impressions from my trip to mountain Koeterberg and mountain Birkenberg

aug. 31. – sept. 04.

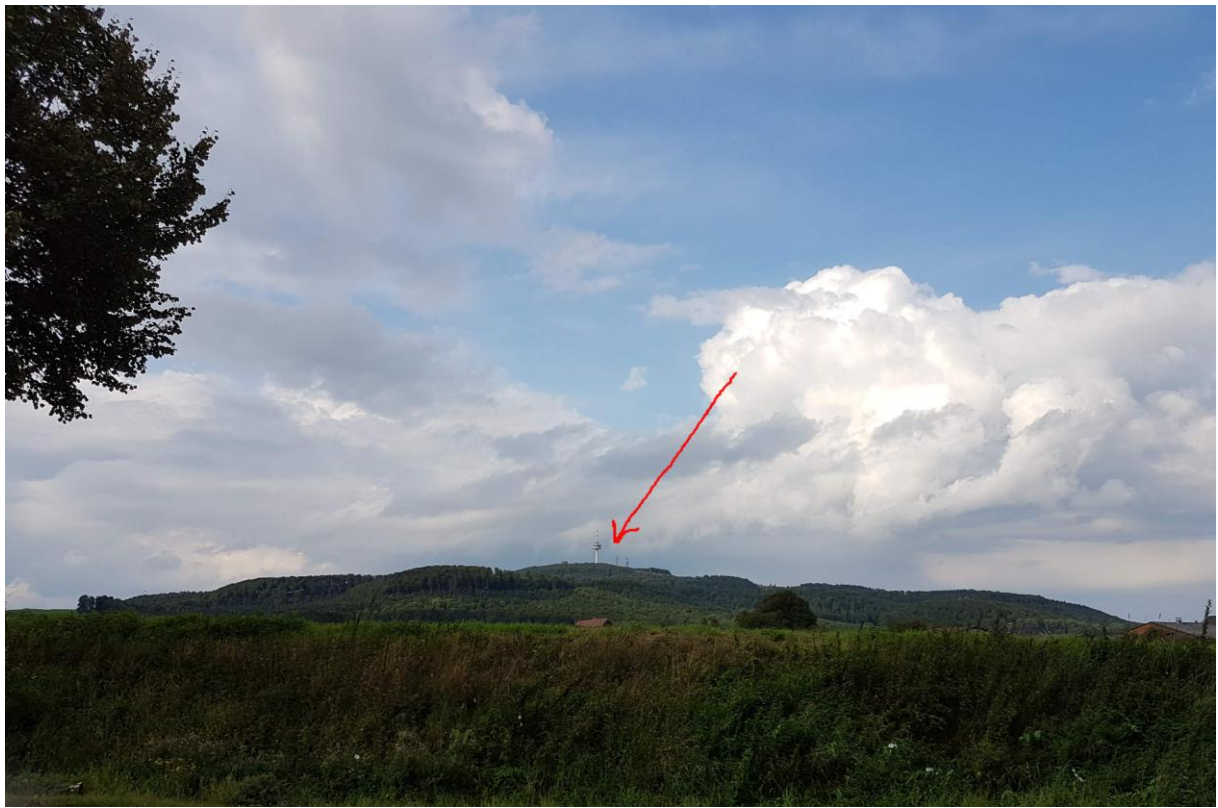

3/6/9cm + 24/47GHz

A lot of things to pack in the car...

Mountain Koeterberg in JO41PU (Weserbergland). 500m ASL

Hotel mountain Koeterberg

View direction north

Mountain Koeterberg is a favorite meetingplace for the biker scene

3/6cm qsos to DL3IAE/DL3IAS

9cm qso with Peter OZ9PP – sunset in jo41pu

next morning- fog down in the valleys – view dir north

View dir south

10GHz AS QSO with Maurice F6DKW JN18CS

The weather forecast was very bad for my activity days, but that was completely wrong, only 1 thunderstorm on saturday. Other days a lot of sun (20° C)

Last hour on mountain Koeterberg:

I have made some QSOs during IARU R1 144MHz contest with 50watts and 4 element Yagi (odx G8P in JO01)

Hotel "Schierbrucher Krug" 8kms from Koeterberg

Next date was a visit at our daughters house (Sabrina, DB6NI in JO51CL)

After a long time with no activity Sabrina made some QSOs during 2m contest.

mountain Pferdeberg in JO51CL (255m asl)

Complete family was included to fix the mast for the 2m antenna

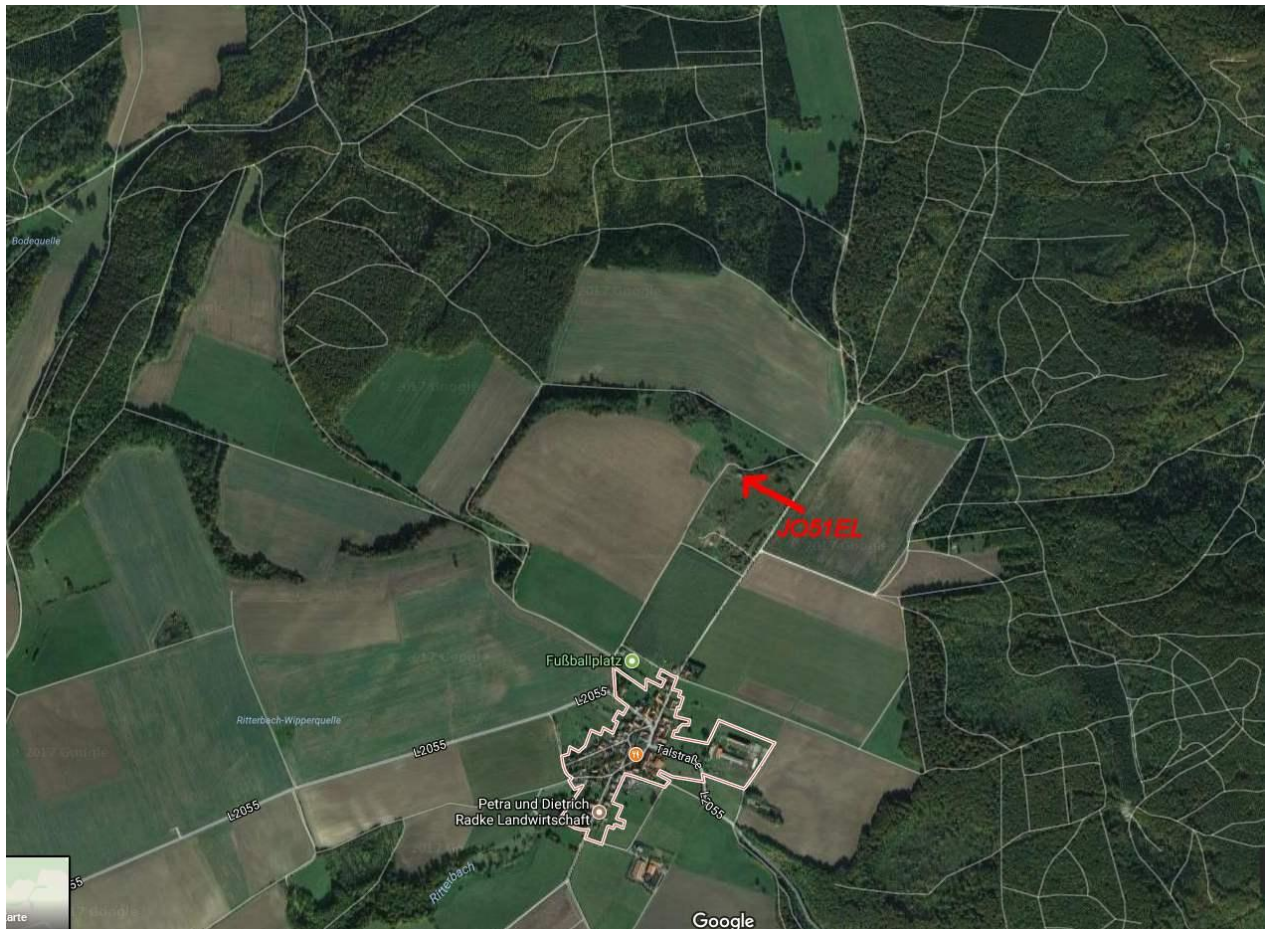

some test on 2m from her home QTH (also JO51CL)

Next stop was on mountain Birkenberg (Ohmgebirge, 550m asl) in JO51EL -  
a former radar site from the Russian army

view direction south

platform for the former radar antenna – view direction Berlin

direction DL7QY for some tests on 24GHz

again very nice AS QSO on 3cm with Maurice F6DKW (655km)

direction OZ9PP/OZ2OE

Birkenberg is a lonely place in the nature, only some horses in the neighborhood

Many thanks to all OMs for QSOs and tests from both locations.

This was my 6th visit on mountain Koeterberg/Birkenberg, but not the last.

Next challenge is from JN56PT.

Plans for the next year: Activities from rare Locators in DL and around on 3/6/9cm and 24/47GHz.

Maybe JO71/72 and/or JO74AA.

Of course a new trip to JO41PU and JO51EL during RS season.

Info about my activities are always on my homepage <http://www.dl6nci.de> "news"
