

International Amateur Radio Union Region 1 2011 Regional Conference – Sun City, South Africa 12 to 19 August 2011

Subject:	Emergency Communications Frequency Usage at VHF/UHF		
Society:	EMCOM WG	Country:	
Committee:	C5	Paper number:	SC11_05_50 Inf
Author:	Greg Mossop G0DUB		

Introduction

The Emergency CoA is not part of VHF/UHF band planning for good reasons as the requirements vary significantly from country to country.

This information paper lists frequencies which emergency communications groups have provided to me and which they have not blocked for publication on websites. By being informed of current usage, it is hoped that this will assist Committee C5 should any band plan changes be proposed for other reasons (e.g. Space / Satellite) which may affect existing emergency communications uses.

Country	Freq (MHz)	Mode/Usage
Great Britain	51.210	FM
Great Britain	51.950	FM
Great Britain	51.970	FM
Great Britain	51.990	FM
Great Britain	70.350	FM
Great Britain	70.375	FM
Great Britain	70.400	FM
Lebanon	144.025	FM RPTR
Nigeria	144-146	BAND
Germany	144.260	USB
Great Britain	144.260	USB
Ireland	144.525	FM
