

Visitor from Sweden

Some days ago I got a visit from Torleif, SM7EYW, known as an operator from the famous SK7MW station. Torleif was very interested to see where the signals come from, which support SK7MW every week in the NAC.

It was a lucky chance that exactly at that weekend the radio club from Naila was celebrating his annual field day at the area which belongs to firm from Michael, DB6NT, so we had the possibility to meet many friends.

At Monday we got a visit from Hakan, SM3LBN and his family, who were at their way home from a holiday- trip from Italy to north Sweden. They came with a big caravan and decided to stay at Ahornberg for a night. So I could take the change to explain Hakan how to handle the special locks from the beer bottles.

Prost!

Later on we light the stove for a barbeque

I think we had a beautiful evening with many discussions and a lot of fun. The night ended at 01:30 in the morning with a cup of coffee and some ufb "muffins" which we got from Elena. Tack för en trevlig kväll!

At Tuesday my friends started their long way back to Sweden not without supplying the caravan with the famous beer which comes from the brewery in the small village 500m away from my VHF- QTH.
